# Varian & Price List Papier & Herbs Januari 2020

## **Our Idea between tea, paper and the journey**

Started in December, 2018 in Sleman, Yogyakarta, Papier & Herbs is an artisan tea maker, focused on herbs blend as tisane and smoke. Tisane is a tea without tea leaves, and our smoking herbs is a cigarette with no tobacco inside. Yogyakarta is a city formed by various encounters. It all inspired us to make various experiments and explorations in terms of taste and aroma. Tisane/herbal tea is like a form of our metaphorical expression of the reality of diversity that occurs, which may not only be in Yogyakarta, but also in every place. On the other hand, Yogyakarta is a city with many of tourist, students, artists, art worker, intellectuals, and has many kind of small scale bussiness of culinary, hotels, and retails. this condition supports us to develop our artisan bussiness. This small scale business tries to provide alternative types of drinks and cigarettes that are different from usual. We use a mixture of local and non-local ingredients in our products.

# Price List Papier&Herbs
